SUMMARY OF QUALIFICATIONS

Final-year Bachelor of Technology in Information Technology student focused on Network Administration & Security. AWS Certified Solutions Architect – Associate with academic and project experience in cloud infrastructure, networking, wireless authentication, and digital forensics. Brings 3+ years of customer-facing experience troubleshooting consumer technology and communicating technical concepts to non-technical users. Seeking an entry-level Network Administration, Cloud Infrastructure, or IT Support role starting January 2027.

TECHNICAL SKILLS

Networking & Security Labs: Cisco IOS, VLANs, STP/RSTP, OSPF, ACLs, NAT, 802.1X, RADIUS/NPS, EAP-TLS, Wireshark, Nmap

Cloud & Infrastructure: AWS (EC2, VPC, S3, IAM), Azure, Docker, Terraform

Systems Administration: Windows Server, Active Directory, NPS, Group Policy, AD CS, Linux

Scripting & Tools: Python, Bash, Boto3, SQL, Git, Microsoft 365

User Support: Windows/macOS, iOS/Android, Remote Support, Hardware Troubleshooting, Device Setup & Imaging

Professional Strengths: Communication, Troubleshooting, Documentation, Training, Teamwork, Adaptability, Time Management

EDUCATION

Kwantlen Polytechnic University

Sep 2022 – Dec 2026 (Expected)

Bachelor of Technology, Information Technology | Specialization: Network Administration & Security

Relevant Coursework: Cloud Computing, System Security, Networking Technologies, Digital Forensics, IoT Systems

Certifications: AWS Certified Solutions Architect – Associate (Nov 2024) | AWS Cloud Practitioner (Feb 2024)

PROJECTS

802.1X / EAP-TLS Authentication Lab | Azure & Windows NPS | [Report link](#)

Feb 2026

- Built a lab-based WPA3-Enterprise authentication environment with Windows Server NPS, Azure VMs, Active Directory, and AD CS.
- Configured 802.1X/EAP-TLS authentication and analyzed RADIUS traffic with Wireshark and Windows Event Logs.

Tools: Windows Server 2022, Active Directory, NPS, RADIUS, EAP-TLS, 802.1X, Wireshark, Terraform, Azure, AD CS

STaaS Cloud-Based Smart Drive | [GitHub](#)

Dec 2025

- Built an AWS lab environment with VPC segmentation, NAT gateways, bastion hosts, and least-privilege IAM for controlled access.
- Automated AWS deployment/configuration tasks with Python (Boto3) and packaged frontend/backend services with Docker; tested deployments.

Stack: AWS (VPC, EC2, S3, IAM), Spring Boot, Docker, MongoDB, Python

IoT Patient Monitoring & Alert System | [GitHub](#)

April 2026

- Built an embedded C++ prototype simulating temperature, heart rate, and motion data for patient monitoring.
- Integrated LCD diagnostics, alert overrides, nurse-call logic, and servo locks; tested nine alarm and fail-safe scenarios.

Tools: Embedded C++, Arduino, Tinkercad

WORK EXPERIENCE

Porter | Vancouver Coastal Health

Oct 2022 – Present | Vancouver, BC

- Coordinate time-sensitive logistics across 30+ clinical departments, maintaining strict adherence to patient safety, privacy, and infection control protocols in a high-stress environment.
- Troubleshoot equipment issues and train new staff on standard operating procedures in a fast-paced healthcare environment.

Sales Representative | Bell Canada (Authorized Dealer)

Apr 2018 – Aug 2021 | Surrey, BC

- Troubleshoot iOS/Android, Wi-Fi, Bluetooth, and mobile connectivity issues while explaining technical solutions and maintaining accurate CRM/POS records.
- Explained technical products and troubleshooting steps to non-technical customers while supporting device setup and inventory updates.

VOLUNTEER

Cystic Fibrosis Canada Foundation – Event Support Volunteer

May 2025 | Burnaby, BC
