

LOVEPREET SIDHU

lovepreet.sidhu3@student.kpu.ca | 778-908-3286 | <https://lovesidhuy.github.io/portfoliowebsite/> | Surrey, BC

PROFESSIONAL SUMMARY

Final-year Bachelor of Technology in Information Technology candidate specializing in Network Administration & Security (Expected Graduation: December 2026). AWS Certified Solutions Architect with hands-on experience in secure cloud infrastructure, enterprise routing, wireless authentication, digital forensics, and IoT systems. 3+ years of customer-facing technical support experience diagnosing hardware/software issues and communicating complex concepts to non-technical users. Seeking new-graduate Network Administration, Cloud Infrastructure, or Cybersecurity Operations roles starting January 2027.

TECHNICAL SKILLS

Networking: Cisco IOS, VLANs, STP/RSTP, OSPF, EIGRP, BGP, ACLs, NAT, 802.1Q, Packet Tracer

Network Security & Identity: 802.1X, WPA3-Enterprise, RADIUS/NPS, EAP-TLS, AD CS, Wireshark, Nmap

Digital Forensics & Hardening: FTK Imager, Autopsy, evidence acquisition, phishing analysis, endpoint hardening, GPO

Cloud & Infrastructure: AWS (VPC, EC2, S3, IAM, NAT), Azure VMs, Docker, Terraform, Ansible

Systems & Scripting: Windows Server 2022, Active Directory, Group Policy, Linux (Ubuntu, Kali), Python (Boto3), Bash, C++, SQL, Git, ERP Software (Odoo)

User Support: Windows/macOS/iOS/Android, remote support, hardware troubleshooting, CRM/ticketing, device imaging

EDUCATION

Kwantlen Polytechnic University — Surrey, BC

Sep 2022 – Dec 2026 (Expected | Final-Year Candidate)

Bachelor of Technology, Information Technology | Specialization: Network Administration & Security

Relevant Coursework: Networking Technologies, Cloud Computing, Digital Forensics, Security of Wireless Systems, IoT Systems

Certifications: AWS Certified Solutions Architect – Associate (Nov 2024) | AWS Cloud Practitioner (Feb 2024)

SELECTED PROJECTS & LABS

Identity Infrastructure & Enterprise Authentication Lab | Wireless Systems

Feb 2026

- Deployed password-less WPA3-Enterprise simulation using Windows Server NPS, Azure VMs, Active Directory, and AD Certificate Authority (AD CS).
- Configured 802.1X access control and EAP-TLS mutual authentication to isolate rogue endpoints; analyzed RADIUS handshakes and packet differences with Wireshark and Event ID logs.

Tools: Windows Server 2022, AD, NPS, RADIUS, EAP-TLS, 802.1X, Wireshark, Terraform, Azure, AD CS

IoT Smart Patient Monitoring & Alert System | IOT

April 2026

- Engineered an embedded edge-computing monitoring prototype in C++, implementing a multi-tier priority state machine to evaluate real-time vital telemetry (temperature, BPM, motion) and trigger automated audio-visual alarms and servo lock mechanisms.
- Integrated I2C LCD diagnostics, alert acknowledgment overrides, and emergency nurse call logic, validating system reliability and edge fail-safes across 9 distinct simulation test scenarios.

Tools: Embedded C++, Arduino, Tinkercad

Link: <https://github.com/lovesidhuy/Smart-Patient-Control-System>

STaaS Cloud-Based Smart Drive | Cloud Computing

Dec 2025

- Designed and deployed a secure AWS environment with VPC segmentation, NAT gateways, bastion hosts, and least-privilege IAM policies for network isolation and controlled access.
- Automated infrastructure operations using Python (Boto3), improving deployment consistency; containerized services with Docker.

Stack: AWS (VPC, EC2, S3, IAM), HTML, CSS, JavaScript, Spring Boot, Docker, MongoDB, Python

PROFESSIONAL EXPERIENCE

Porter | Vancouver Coastal Health

Oct 2022 – Present | Vancouver, BC

- Coordinate time-sensitive logistics across 30+ clinical departments while maintaining strict patient safety, privacy, and infection-control protocols in a high-stress regulated environment.
- Troubleshoot equipment issues and train new staff on SOPs, improving operational workflows in critical care settings.

Sales & Technical Support Representative | Bell Canada (Authorized Dealer)

Apr 2018 – Aug 2021 | Surrey, BC

- Diagnosed and resolved iOS/Android, Wi-Fi/Bluetooth, and mobile network issues for 20+ customers daily, improving first-call resolution.
- Translated complex technical concepts to non-technical customers and maintained CRM/POS records, reducing post-sale support inquiries by 25%.

VOLUNTEER

Support Volunteer | Cystic Fibrosis Canada

May 2025 | Burnaby, BC
